

Judy Lee
Resident of San Jose
Korean American Community Services

COI Testimony for Santa Clara County District 4
Wednesday, September 22nd, 2021

My name is Judy Lee and I am a program assistant at Korean American Community Services. I have been a resident in the Cambrian area in the city of San Jose for 8 years. The Korean American Community Services is located near Valley Medical Center in District 4 which is a non-profit organization providing vital social services and lunch meals to low-income families and individuals within the Korean American community as well as the surrounding neighborhoods.

I request to keep the Korean American Community Services in District 4 because many Korean American senior citizens get help with translating services and it is convenient to use the VTA bus route for those who don't have their car to drive.
