Hello,

My name is Andrea and I am a longtime resident of Mountain View in District 5. I am emailing to support the redistricting proposed Unity Map.

The changes proposed to my district show a better reflection of what our community looks like in terms of homes and income levels, and is more geographically sensible than being paired with South County.

This map is both balanced in terms of population deviation, racial and ethnic spread, while also seeking to advance fair elections simultaneously and ensure that there is a multiracial consensus.

Thank you for considering the Unity Map.

Respectfully,  
Andrea Peña  
Resident of District 5
