RE; redistricting,

Plans Y and Z show the least dramatic changes, exhibit less gerrymandering and keep our neighborhoods more intact. If you want real unity, please reject these other maps, which only serve the special interests, at the expense of all voters and neighborhoods.

Please, reject any maps, which divide well established neighborhoods and disempower their residents. By law, districts are to be compact and maintain communities of like interests. For these reasons, our neighborhoods, be it the San Jose University neighborhood, Los Gatos, or Willow Glen should not be divided.

Thank you, for listening!

Regards,

Christina J.
