Subject: [EXTERNAL] Support for Commissioner Pham Equal & Equitable 2.0 and Unity Compromise Map, ID:69159
Date: Monday, October 25, 2021 3:10:43 PM

Commissioners,

My name is Denise Ramon Herrera, and I am a resident of Los Gatos (rural). I am supporting Commissioner Pham's Equal & Equitable 2.0 and Unity Compromise Map, ID:69159 in which it takes into account some attributes from the other maps to form a compromise map.

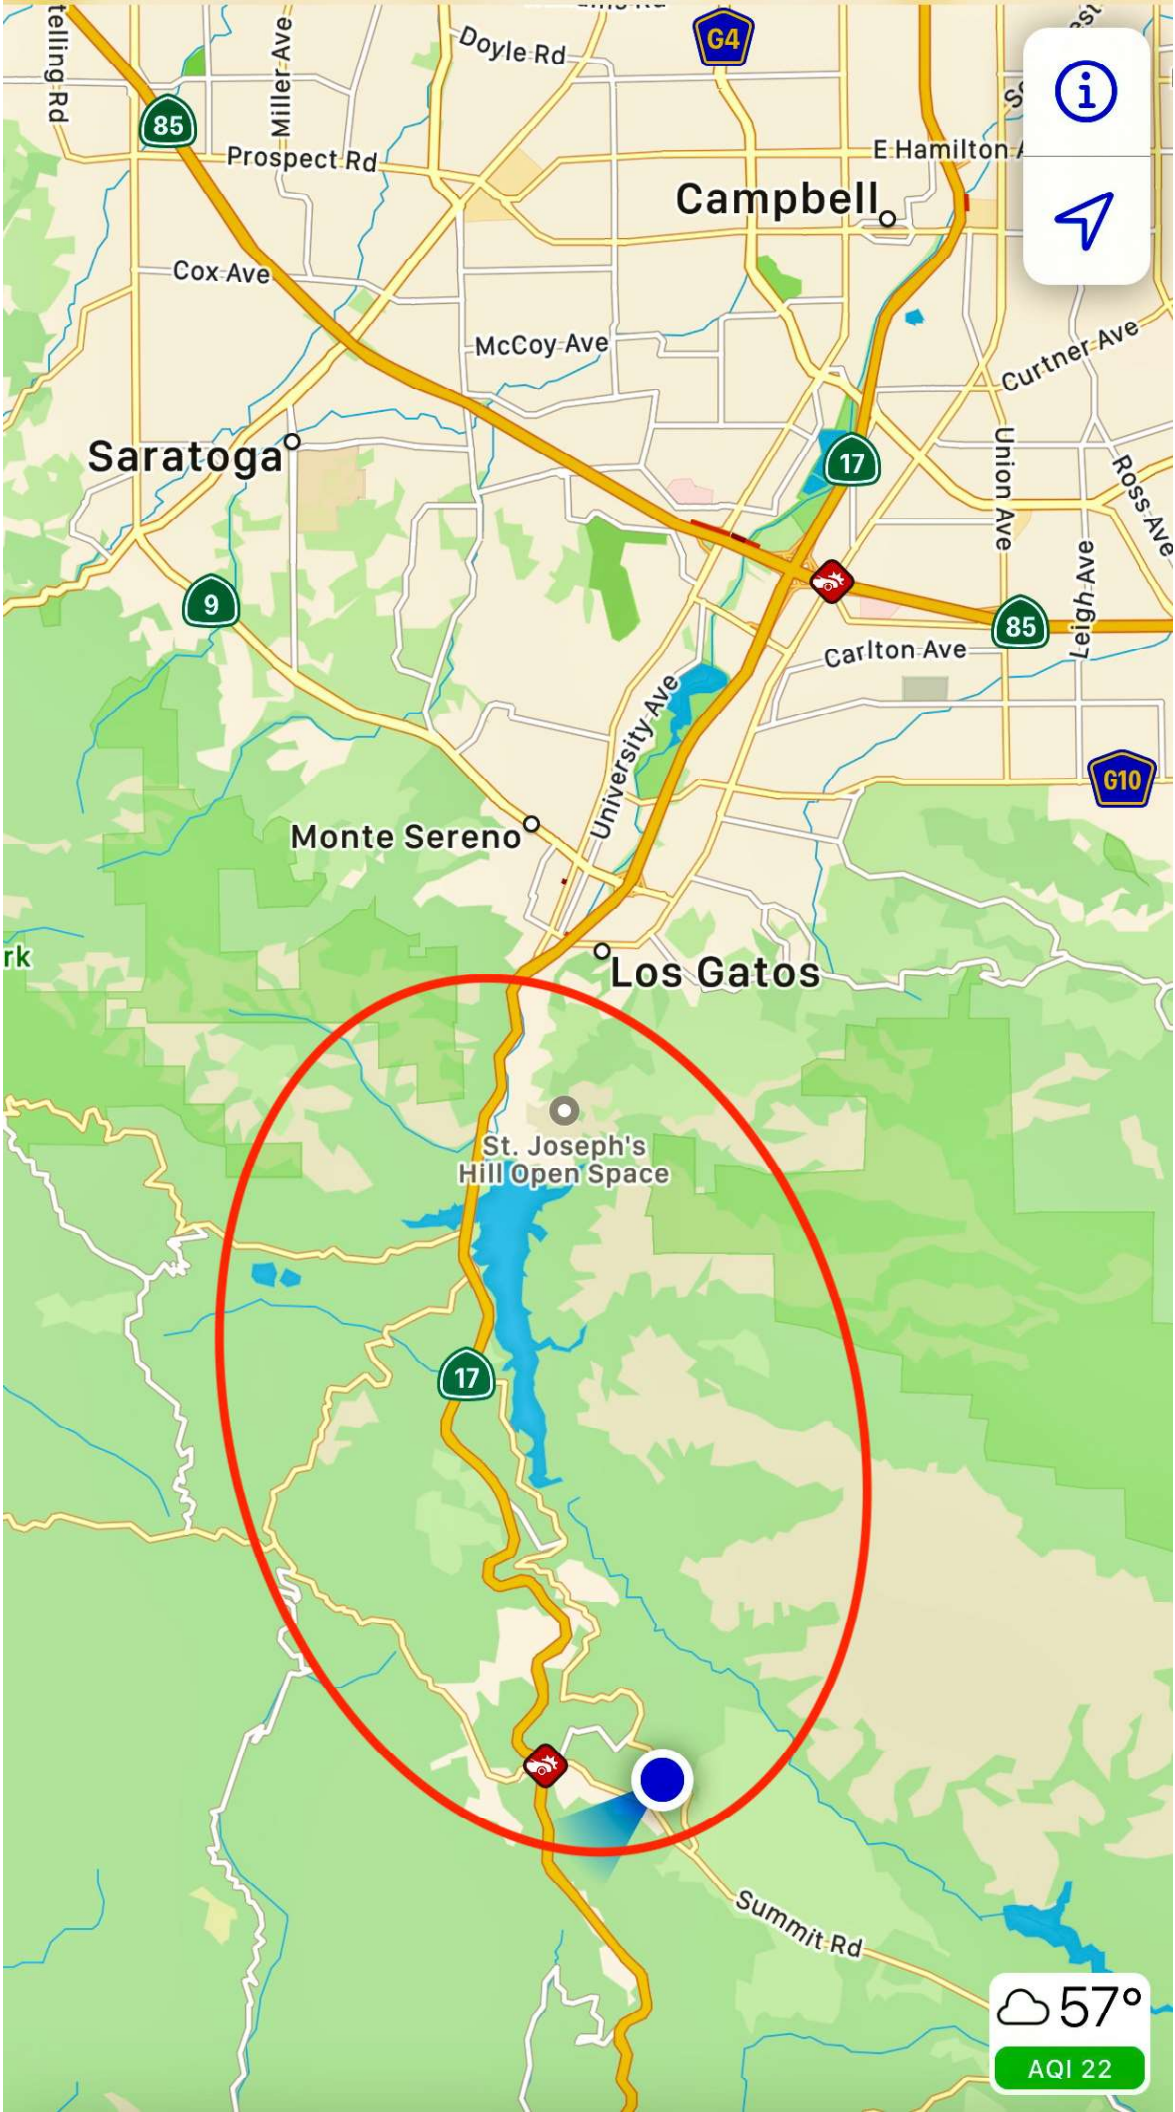

- (1) Mountains and rural areas including: Almaden, Gilroy, Morgan Hill, Lexington Hills, Los Gatos, and San Martin are kept together in one district which is good so that issues such as for example its residents being in close proximity to the mountains and therefore our community is highly interested in wildfire prevention programs.
- (2) Joins communities with similar transportation systems.
- (3) Keeps the whole city in one district except for San Jose.
- (4) Appears to have similar racial voting age percentages to maps such as the most recent labeled Unity Map.
- (5) Maximum population deviation is 0.92% since all district populations are closely equal in population

I also support the Equal & Equitable 2.0 map, ID: 66950 but Commissioner Pham's Equal & Equitable 2.0 and Unity Compromise ID 69159 is a better map.

Attached is a map of the rural area where I reside.

With sincere gratitude,
Denise Ramon Herrera
