Santa Clara County Draft Maps
This presentation will cover some basics for those first engaging in the process, and go into potential new maps for Santa Clara County.

- Fair Maps Act Criteria
- Two Draft Revisions
- Commissioners Draft Plan
- Unity Draft Plan
- Next Steps
California Fair Maps Act
Open and Fair redistricting process

The Fair Maps Act passed by the Legislature mandates a set of criteria we must follow when drawing district plans.

- Relatively equal size - people, not citizens
- Contiguous – districts should not hop/jump
- Maintain “communities of interest”
- Follow city and census designated place boundaries
- Keep districts compact – appearance/function
From COI to Maps

With more cities and counties using commission-based redistricting, we move redistricting out into the public, with maps driven by Community of Interest testimony.

• **Input from community drives process** with multiple ways for the public to engage.

• **Rules for process** emphasize the importance of traditional criteria and minimizing divisions of neighborhoods.

• **Releasing maps for feedback** – today we will see plans to spark more public engagement.
Maps to Review

There are five plans to review today.

• Plan X2a
• Plan X3
• EEF
• Unity Table Map
• Plan Y2

Each plan has an overview, data table, individual district pages and web map that has been provided to the district and is available on the county redistricting website.
Maps to Review

Plan X2a

- Limits the splits of all cities, with only City Santa Clara and San Jose split
- Creates a majority-minority API district in District 3
- Creates a Latino influential district in District 2 – uniting the historic East San Jose neighborhoods together
- Unites Koreatown in District 4 – causing a slight split to the City of Santa Clara
- Creates a western cities district in District 5 – uniting Palo Alto, Mountain View, Saratoga, Monte Sereno and Los Gatos

What’s Next

The Board of Supervisors can make use of these mapping options in a number of ways.

- **Identify preferred plan(s)** with an understanding that none of these are final plans. *It is an iterative process.*

- **Suggest possible changes**—adjustments can be made to any of the draft plans.

- **Provide direction** for the preparation of new draft map(s) to be put out for public input and future review and adoption.

- Consider new draft maps at a public hearing scheduled for the next regularly scheduled Board meeting.
