The attached presentation included with this report looks at individual demographic factors and how they align with countywide demographic data to inform the discussion on the appointment of commissioners to Seats 11 through 15.

The recommended process discussed at the July 7, 2021 Advisory Redistricting Commission Special meeting is outlined below for consideration:

1. Each Commissioner will receive two minutes to share information on their nominations. After the verbal presentations for each seat (which is by supervisorial district), all Commissioners may ask questions of either the Commissioners for the seat being discussed, or applicants for the seat in discussion.
2. Once each seat has been discussed, the Commission will discuss the potential of nomination all five seats in one motion. Having motions after the discussion will allow the Commission to determine if there is a consensus.

Should the Commission elect to update the nominees above, staff will be available to provide updated demographic information during the meeting.

CHILD IMPACT

The recommended action will have no/neutral impact on children and youth.

SENIOR IMPACT

The recommended action will have no/neutral impact on seniors.

SUSTAINABILITY IMPLICATIONS

The recommended action will have no/neutral sustainability implications.

Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

My family has been in Santa Clara County for 5 generations. Over the past 100 years we have been mainly farmers and business people with all of our business activities focused in Santa Clara County. I view my past and future as being intrinsically bound to this County, and I feel its important that I involve myself in thoughtful administration of the place we all call home. I have been involved in real estate development, though I am no longer particularly active in SCC. I have also managed a fresh produce (apples) processing facility, making ready to eat fruit products for schools that we sold throughout California and the western region, which led me to interface with many state and county School Nutrition Specialists, providing an incredible education on the school lunch programs and general school district functions.

I strongly believe in equity in education, which is one of the reasons I started an international non-profit to deliver wheelchairs to families in need around the world. The chairs are a crucial piece of the education puzzle in developing nations, as young girls are often forced to stay home to care for disabled family members. By providing wheelchairs, we help create an opportunity for young girls to attend school more often, which is crucial to breaking the cycle of poverty, as literate women always teach their children to read.

I have been fortunate to travel the entire US over the course of a 6 month non-profit advocacy campaign, promoting Pediatric Acquired Brain Injury awareness. I have been to almost every major city in the US, and many small ones. This provides me with a unique perspective on conditions in SCC and California more broadly. Specifically, I believe California continues to sell itself short on the possibilities here, in spite of the challenges.

I served as a school district Superintendent in Santa Clara County from 2013-2019 (Santa Clara Unified School District) and as a Superintendent for seven years prior (2006-2013) in San Benito County (San Benito High School District). In that role, I was required to consider school board member geographic districts and have had some cause to learn about the California Voting Rights Act and issues of fair representation.

I have worked on equity-related issues in education and in the community, beginning in 1997, including race, gender, ethnicity, sexual/gender orientation, socio-economic status, and age, as well as Title IX-related issues.

I have served and currently serve as a board member (volunteer) for non-profits, including the Silicon Valley American Heart Association, Innovate Public Schools, and ACE Public School Network. I currently serve on the Board of Amigos de Guadalupe Center for Justice and Empowerment.

I have lived and worked in the Bay Area most of my life and have spent my professional life as an educator (46 years) predominately working in Santa Clara County, but also spending some time in San Mateo, Alameda, San Benito Counties.

30. Are there any interests or activities that you wish to bring to attention of the Board of Supervisors? *

Until COVID-19, I sang in my church choir at Our Lady of Guadalupe Catholic Church.

I have and am currently mentoring/coaching young adults in college or new to the work force.

I am interested in issues of immigration reform, homelessness and at-risk of homelessness, and remain interested in equitable access to resources necessary for self-sufficiency for all who live in Santa Clara County and beyond.

As a lifelong Bay Area resident, I am an avid baseball (Giants), football (49ers), and basketball (Warriors) fan.

Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

Respectfully, I believe my experience, values, and belief system would serve the County well in the role of Commissioner in this important role of advisor to the Supervisors as they decide districts in Santa Clara County. My doctorate from UC Berkeley is in Educational Leadership with an emphasis on equity. Eighteen of my forty-six years in education were spent working in Santa Clara County, the last six of which as Superintendent of Santa Clara Unified School District. In my 13 years of service as a school district Superintendent, I have worked with the Brown Act, the California Voting Rights Act, and a variety of issues of equity in education, including Title IX, ethnicity, gender and gender orientation, and issues around fair representation. I have considered school boundary changes as we moved to open new schools, and I have been involved community workshops for the public, most of which have had some level of consideration of fair representation. In all such cases, I have attempted to be a good listener and have attempted to ensure that representation included consideration of age, ethnicity, gender, and sexual orientation.

I have considered board member geographic districts and dealt with mapping issues involving local plan areas. I have been involved with polling as Santa Clara USD passed over one billion dollars in general obligation bonds. I have been involved with population projections, including student enrollment projections, and I have some experience around looking at trends and analyses.

When I retired almost two years ago, I was recognized for my service by the United States Congress, California State Senate and Assembly, Santa Clara County Board of Supervisors, and the City of Santa Clara. I work using both my heart and mind. I believe all these experiences would serve the Commission well.

Thank you for your consideration.

Four Years of Operations Analyst experience grants me a strong basis for assessing data sets and making data driven decisions as well as working with various stakeholders on varied projects and business operations.

Strong communications ability, both written and spoken.

Strong interest in current events and local, state, and national politics
Passionate about maps and history. When I was a young child, I would pore over atlases and globes, and studied anything I could get my hands on to understand how the world works. I transformed that curiosity into a strong education in History, emphasizing the history of Ancient Rome. I got my undergraduate degree from UC Irvine, double majoring in History and Classics, and then my Master's from CU Boulder in Classics.

Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

As far back as I can remember, my late grandmother, Ellen Poochigian, would consistently volunteer as a poll site manager for her voting district in Irvine, California. Mine was a youth brought up among people who were politically minded: my stepfather worked on Bobby Kennedy’s presidential campaign, my father’s side of my family had spirited political conversations. I am a relative of the once State Senator and now State Judge Charles Poochigian. Ellen herself worked as a clerk for the City of Bell for many years and started working elections once she had retired. It is no surprise that I grew up with a passion for history, for learning how people and human systems and civilizations work, and a strong sense of civic responsibility and engagement. Although my life has taken me from a career in teaching and tutoring into the tech industry here in the Bay Area, those same values and interests I described above still burn deep within me. I have always been interested in ways I can engage more with my local community, which is why I knew I had to apply to this Redistricting Committee when I saw the opportunity on the County website. This role is the perfect intersection of my data analytics skills, honed through my years of working in the Tech and Test Preparation Industries, my love of maps and demographics, my passion to understand how societies work, and my way to use the civic virtues I was raised with to give back to my community. Considering the scope of the committee and how it has the power to draw the boundaries of our Supervisors’ Districts, the work this committee does touches millions of people for a decade—it would be a high honor to be a part of such a committee!

In that role, I ran numerous public hearings and processed public input on the management of our electoral procedures.
I was deputy regional counsel for the Social Security Administration in San Francisco where I handled sensitive governmental records and helped resolve employment disputes for routine actions as well as specialized and sensitive arbitrations.
I have served in professional roles in county, state, and federal government bodies.

Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

I am an attorney who has served as legal counsel to a state senate judiciary committee charged with oversight of a redistricting process. I have worked with demographic data and mapping software needed to produce balanced and fair districts subsequent to a census. Furthermore, I served as Vice Chairman of the second largest election commission in Illinois. In both of these roles I have drafted legislation, advised elected officials on the rules and procedures of redistricting, and conducted numerous public hearings concerning election administration and dispute resolution. In the balance of my extensive legal career, I have served as both criminal prosecutor and defense attorney and have an intimate knowledge of civil and criminal procedure. I have worked for local, state, and federal governmental bodies and conducted several hundred trials, hearings, and arbitrations to resolve legal disputes. In various other positions, I have counseled county, legislative, and executive officials on the administration of public acts and supported their public hearings. I have completed numerous constituent services on the behalf of those officials.

In summary, I am very familiar with the operation of all three branches of government and could be of great service to any committee or commission using census or voter date to establish new fair voting districts for Santa Clara County. As such I am completely qualified to serve on this Commission and capable of contributing to what I am sure will be a fair and equitable new set of district maps.

I firmly believe that nothing is more important to the administration of our government than the full and equal participation of all citizens in the electoral process. While we cannot expect everyone to agree on the policies, we need everyone to feel that their voices have been heard. Creating fair and well proportioned districts will help our fellow Santa Clara residents participate in their government and hold our officials accountable.

I would very much enjoy working with the other commission members in this process and consider it among the highest honors to serve in this capacity.

SECTION 4. APPLICABLE EXPERIENCE

29. Please list your qualifications thought applicable for appointment.*

My current job is a high school Government, Civics, and United States History teacher. I work daily with young adults to not only teach the process in which I am applying to be more involved here, but also the historical ramifications of decisions made by commissions such as this one. This work as an educator has included crafting an elective course focused on citizen engagement in local and state government. As an educator, I pride myself on being able to work with people from diverse backgrounds, to listen to all perspectives presented, and to facilitate productive conversations. I have been trained in Essential Facilitation which allows me to facilitate more productive meetings, building understanding and agreement amongst the adults I work with, not only within my department but also as a Class Dean and Summer School Principal.

Prior to teaching in this department, I was the department chair and a member of the teaching faculty in our Communication Studies department where my work included assessing arguments at community debate competitions as well as teaching argumentation, public speaking, interpersonal communication, logical reasoning, and research. My background in understanding how individuals form opinions and ideologies as well as ability to analyze and assess competing arguments makes me uniquely qualified for appointment.

30. Are there any interests or activities that you wish to bring to attention of the Board of Supervisors?*

In addition to working in a field that encourages youth understanding and engagement in their local community, I am also active within our local community. I volunteer weekly with Mini Cat Town, a neonatal kitten rescue with an adoption center located in Eastridge Mall. This non-profit organization not only works to help serve some of the youngest members of our community, but it also acts as an education center and a place for community members to gather.

Before working as a classroom teacher, I was employed by the UC Extension Office and San Joaquin County as a 4-H Youth Development Program assistant. I coordinated adult volunteers and worked with youth active in their community. And as a teen, I was an active member of our state 4-H program which instilled in me a desire to engage with my neighbors and give back to my community at every opportunity. Amongst the many opportunities I took to practice service, (prior to COVID, and hopefully again soon), I was also active in serving our Santa Clara County local outdoor fitness community volunteering with trail maintenance programs and at regional races like Girls on the Run's annual 5k.

Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

Our county is large and diverse, with many communities of interest residing within it. Redistricting is our opportunity as a larger collective to ensure equity in representation, engaging as many voices as possible in the process, in order to maximize the goals of this process.

My intention in applying to serve on this commission is to be a facilitator for these voices. As a government teacher who prides herself in being approachable and accepting, I am knowledgeable about the process and seek to engage our community, young and old, in sharing their views on placement of district boundaries. As the adage goes, we are better together, and I want to ensure all residents of Santa Clara County feel safe and welcome in being a part of this process.

As a former competitive debater and then a debate coach, my skills include the ability to question and to evaluate responses with a critical ear; however the switch-side nature of the activity also taught me there is truth in every perspective and value in bringing a diversity of voices into the research and evaluation process. I believe it is important that members of the commission are able to be open and objective in facilitating community feedback and providing recommendations to the Board and I am qualified to serve in this capacity.

First of all, it would be an honor to serve in the 2021 Advisory Redistricting Commission. I have been a resident of Santa Clara County for more than 35 years and have grown to love my community and could not imagine ever moving away. My husband and I have owned our home for the past 15 years and have a 23 year old son whom just graduated this year from Gavilan College. During my residency here in Santa Clara County, I have seen it change and have an appreciation for our community. I would love the opportunity to serve more than I already do.

I am currently a Community Reinvestment Act Vice President Mortgage Loan Officer for Boston Private Bank & Trust. I participate in low to moderate income programs that help our community first time homebuyers purchase homes. I participate in homebuyer education classes whenever possible to help educate our community in homeownership education. I also participate in all Below Market Rate programs in Santa Clara County. I am always expressing my opinion to programs and help them when asked. I understand the level of commitment that is needed to evaluate data and propose the best scenario possible.

I think we all reach a time in our lives when we are ready to serve our community and put to use our resources and knowledge to work. I am ready for that. I hope that you will consider my application and thank you in advance.

SECTION 4. APPLICABLE EXPERIENCE

29. Please list your qualifications thought applicable for appointment. *

I was previously appointed to the Senior Care Commission of Santa Clara County and became the vice-chair of the committee within the first year of my appointment. Unfortunately, due to work demands with Covid, I had to resign my seat. Given that this is a temporary commission and my work load lessening with the lessening of the pandemic, I am freed up to participate in such an important public service. I have been on the Pro Bono Project of Silicon Valley board of trustees for the last 4 years. I have been the co-chair of the board for the last year. That will not impact my ability to participate in this commission. I have been the chair of several committees in the Santa Clara County Bar Association. As an attorney, I understand how to read and apply the laws of the state in order to provide assistance in redistricting.

30. Are there any interests or activities that you wish to bring to attention of the Board of Supervisors? *

As noted above, I have been on many committees for the County Bar Association (as either a member or chair). I have been an attorney for as long as I've lived in this County. I have lived in several different areas around the County and have seen the beautiful diversity living in the County. We need people with a true interest in public service and that's why I am applying for this position.

31. Do you have any obligations that might affect your attendance at scheduled meetings? * Yes No
If you answered "yes" to Question 31, please provide additional information:

32. How did you learn about this vacancy? **Twitter**

Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

When I moved to Santa Clara County, the world was a very different place. It was 9/9/2001. We were two days away from the worst attack on American soil. We did not know what was about to happen. Silicon Valley had just suffered a huge burst of the "dot com" bubble. The place was a ghost town. Truth be told, I didn't know where San Jose was when I moved here from San Diego. But I've raised two girls here. They've gone to elementary, middle and high school here. I've watched Silicon Valley come back. I've watched it survive the 2008 economic crisis. I've watched it rise out of this pandemic. I want to be part of something bigger in this Valley. The Advisory Redistricting Commission would allow me to be part of something that will last for at least a decade---maybe longer.

Being a native Californian, I love my state. I was educated in the public school system and was the first person in my family to attend college. As a woman in the 90's, I was able to go to one of the best public universities in the country, Cal Poly SLO. I graduated with a BS in Mechanical Engineering. After spending 4 years in the blossoming medical device industry, I made the decision to stay home and raise my children. I was very active in all of their activities, at the same time, allowing me to be active in our community. I was active with Little League, National Charity League, and in the school my children attended. I am also active in my church, which is also active in my community. Many hours were spent with our unhoused population through Villiage House, as well as spending time with the unhoused in their living space with Pastor Scott Wagers. South Valley FISH Food Pantry (affiliate with Second Harvest), is where I spent many hours during the pandemic, which also was part of my interaction in the community.

Through my life experience, I want to now give back to the State of California in this capacity.

Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

I have been a resident of Santa Clara County, except for several years in San Mateo County, since 1969. I attended high school and college here and have raised my family here. I have voted in every election since 1972 and, until 2016, mostly thought "other people" would take care of the details of governing.

I have been closely following National, State and local politics over the past five years. I know how important Redistricting is on the Federal level and I believe working locally is just as important. I am finally at a point personally and professionally where I have the time to actively help my community and am interested in this opportunity. I am committed to the time and the work involved in this project.

I realize that you may be looking for someone with more experience, I can make up in effort what I lack in experience.

Thank you for your consideration,

Beth Kane

Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

I meet all cited requirements except the two items explained in responses #30 and #31.

Community Service - As an Board Member of the Berryessa Citizens Advisory Commission I led the Committee that engaged with the State Redistricting Commission to present our case for boundaries that protected the political voice of our uniquely dense Asian population (60%) from fragmentation. In my role I crafted letters and presentations that showed how our boundary proposal respected the Commissions charter to ensure maximum levels of ethnic participation and support communities of interest. Our efforts resulted in our area being in only the 17th Congressional District (had in two), the 10th State Senate District (had been in four), and the 25th Assembly (had been 2).

Achieving Commission Objectives - I have relevant experience in requirement for equal district representation balanced by the charter to protect minorities/ethnic populations and communities of interest. I understand that the Commissions work will impact the citizens of Santa Clara County for a decade, so we need to be through, transparent, and committed to public engagement.

Service to Santa Clara County - I have served for six years on the Fairground Management Corporation Board (currently Chair) including the Recruiting Committee that hired the current Executive Director, the Finance Committee that monitored the fiscal and audit process, the Fairground Heritage Foundation Liaison, and Policies and Procedures Committee. These contributions are evidence of how I step toward responsibility and deliver results.

Ethics Awareness/Training - As an FMC Board Member I have been trained on Brown Act compliance, completed the Santa Clara County Training on Sexual Harassment Prevention Training, and have a Form 700 on file. I am committed to being a Commissioner that is engaged, eager for public input, transparent in my dealings, and collegial with the other members of the Commission.

SECTION 5. WRITTEN STATEMENT

34. Provide a written statement of qualifications not longer than three hundred (300) words expressing why you believe you are qualified and wish to serve on the Commission. Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

Beyond my interest in participating in the redistricting process, I believe my policy-related experiences, analytical skills, and commitment to this community will be an asset to the commission.

For nearly four years I worked for Congress and for an additional four years I worked in the community advocating for policies that will benefit the community. These included work on, but not limited to, areas of census outreach and education, access to healthcare, and education. These experiences provide me the relevant experience to understand and apply state and federal legal requirements for the process. Moreover, it also gave me an understanding of the local community. To continue building my knowledge of the community, I have been active in becoming part of the community since moving to the county. My professional and personal work has been centered on ensuring traditionally marginalized communities have a voice and receive the services they need.

Prior to my work in policy and community relations, I conducted quantitative research in the social and health sciences. My graduate training in quantitative research methodology and subsequent work experience that produced over 10 peer reviewed journal articles allowed me to develop and hone my data analytical skills. These skills will help in comprehending demographic and spatial data in drawing new boundaries for redistricting.

Redistricting is also about providing people a voice. Prior to the 2011 redistricting, the area I live in, Berryessa, was chopped up into four state assembly districts and two senate districts. The area, which has a large Asian Pacific Islander population was essentially divided to reduce their collective voice. Thankfully, redistricting in 2011 changed that. It is with that understanding that I would hope to ensure communities voices are secured and not silenced.

After college, (I ke around 1969) I joined Mensa in Los Angeles and soon began holding regional offices, up to Area Secretary and Board Chairman. As Board Chairman, I served on the national board. So I have long been involved in participating in and conducting meetings.

In the 1970s, I spent a month on Jury Duty in Los Angeles, serving on two civil and one criminal cases (serving as foreman on the latter).

I have served my local homeowners association as a board member, occasionally as President or VP or Secretary for about 35 years, I now also serve on the Milpitas Science, Technology, and Innovation Commission. As a commissioner I was trained in, and obliged to honor, the rules of the Ralph M. Brown Act. I now serve as the commission's Vice Chair.

As a Senior Information Developer for SAP Labs in Palo Alto, I create and produce documentation for software. For many years, I was a board member of the Silicon Valley Chapter of the Society for Technical Communication, serving as Secretary, founding Webmaster, and President.

Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

In college (Cal Poly Pomona) I developed a habit of volunteering for jobs/offices. Later, when I had just joined Mensa, I was approached to serve as the vice-chair of the local group, and within a year the chair unexpectedly died, leaving me in charge. When the local groups of greater Los Angeles organized as a federation with officers, I found myself an officer of the federation

When we moved to Milpitas, we joined Sunnyhills United Methodist Church -- a labor-friendly, integrated congregation. Besides volunteering for choir, I held various offices in the church boards, including several years as the delegate from that congregation to the California Nevada Annual Conference.

In my capacity as member of the HOA named Starlite Pines in the southwest corner of Milpitas, I often attended meetings of the City Council and the Planning Commission. sometimes to keep up with what was brewing, sometimes to present my opinion (or that of the HOA) on a matter the bodies were addressing.

As a former Boy Scout, I guess I always try to leave things better than I found them.

I have been working with both big data and mapping software on and off since 2011, whether it be figuring out which utility (water, gas, electric) a user like subscribes to, or doing AI based fraud analysis on purchase. Coupled with my interest in and support of the not-partisan get out the vote drives, this seems like the perfect opportunity to match my skills with a project to support the community.

Previously I have worked for the Registrar of Voters as a precinct inspector, and have taught computer science through the TEALS program to underprivileged students in California. I have also been involved in Defy Ventures, helping incarcerated individuals develop business plans while in prison, then execute them upon release. I know the value of diverse community involvement in our society.

SECTION 4. APPLICABLE EXPERIENCE

29. Please list your qualifications thought applicable for appointment. *

- I have 30 years of work experience in the nuclear energy field that demonstrates the ability to comprehend and apply the applicable State and Federal legal requirements.
- I have the education (bachelor's in chemistry with minor in business, master's in chemical engineering) and work experience (nuclear energy, technology, software, data science, and GIS) that demonstrates the technical and analytical skills relevant to the redistricting process and voting rights.
- I have the ability and aptitude to complete training regarding local government ethics, statement of economic interests, analytical skills, voting rights, county profile with demographic information, and mapping software.
- As a self-employed consultant, I can attend all planned meetings.

30. Are there any interests or activities that you wish to bring to attention of the Board of Supervisors? *

I have lived in Santa Clara country for nearly 20 years. As a busy technical professional with long workdays, commutes, and business travel, I did not have the opportunity to participate in local affairs at all. However, I have recently left full time employment to do part time engineering consulting and my ability to participate in the community has opened significantly, so I am looking for opportunities to do so.

I am a recreational political junky, but not a partisan. I love to watch 'Steve Kornacki at the Big Board' but have not been very politically active beyond voting. I was a registered Republican for many years, and have since switched to being a Democrat, but I really am very much a 'moderate'. I do my homework and vote for who I believe is the best candidate. I also believe that political boundaries should represent constituents, not any political party and that gerrymandered boundaries disenfranchise the minority (of which I may one day find myself).

I have lived in Pennsylvania, Virginia, and California and I have traveled extensively through the U.S. and internationally for business and pleasure. I believe that this travel and living experience has significantly influenced my view on the importance of understanding and embracing diversity in people and culture.

31. Do you have any obligations that might affect your attendance at scheduled meetings? * Yes No
If you answered "yes" to Question 31, please provide additional information:

34. Provide a written statement of qualifications not longer than three hundred (300) words expressing why you believe you are qualified and wish to serve on the Commission. Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

I am an experienced chemical engineer and have practiced in the nuclear energy field for 30 years. As an engineer I am analytical and have significant experience with computers, technology, and data science. My experience in nuclear energy has provided me with experience in, and an understanding for, working within regulatory and legalistic frameworks. As pure coincidence, a current consulting project has me working on issues that require a significant understanding of Geographic Information Systems (GIS), U.S. Census Bureau (census blocks) Maps and databases, and state and local geospatial data (such as the California State Geoportal, and Santa Clara Country Department of Planning and Development).

Prior to starting consulting, and for the past 20 years, I worked for a non-profit organization that does Research and Development (R&D) for the Electricity industry. This is a collaborative organization that assembles groups of stakeholders from across the industry, with many points of view, to work together to solve problems. As a senior manager and leader in the organization, it was my role to ensure that all participants had a voice, but then come to a consensus on the work we would do and follow the data and science to come up with solutions. I believe the ability to work with stakeholders to come up with consensus-based solutions will be a vital attribute for success on this commission.

-Experience - I have knowledge and experience in the districting process and the applicable laws. (See above section for more details.)

-Fairness - I am a fair-minded individual. I don't represent any special interest groups. I believe all ideas should be brought to the table. My objectives would be to gather input from the public and collaborate with other commissioners to bring the information together into a cohesive redistricting recommendation.

-Leadership- I serve in a leadership role as the Chair of the City of Santa Clara Citizens Advisory Committee. I have two masters degrees. I have worked in Silicon Valley for over 20 years with significant leadership responsibility.

The county redistricting process is very important to our democracy. The boundary lines need to be drawn to ensure that communities of interest are able to elect representatives that understand and respond to the unique needs of each community. In addition, it is very important that the process complies with all applicable federal and state laws.

I am looking forward to the possibility of being a Santa Clara County Advisory Redistricting Commissioner for 2021, and I feel I am very well qualified for the position.

Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

It would be wonderful if everyone had the opportunity to participate in civil service. Imagine the pride individuals would feel, if they could be a part of a successful local or national initiative instead of just arguing about it.

But between raising a family and growing a career, who can find the time? Even a few days of jury duty can feel like a huge imposition. I was fortunate to be able to serve on the WGNA Board years ago and as a recent retiree, I now have the time that makes it easy to contribute to my community. I think my background and experience are perfectly suited to working on the Redistricting Commission. The combination of building heuristic computer applications, operating large accounting databases, and dealing with clients and vendors, shows I can handle complex systems, know how to solve problems and work well with other people.

I have a fascination with the redistricting process, love cartography and know this valley well. Thank you for considering me for the County Redistricting Commission.

SECTION 4. APPLICABLE EXPERIENCE

29. Please list your qualifications thought applicable for appointment. *

Outside of my professional experience working for the City of San Jose (2000-2004) where I staffed an elected official on issues of re-districting during the 2001 re-districting process, my current role working to promote ethical practices in rental housing, I have served on numerous civic committees and task forces that address complicated issues and require diverse stakeholders to reconcile often conflicting points of view, compromise, and work toward consensus and work in a constructive manner. Some of these include:

- **San Jose Structural Budget Deficit Elimination Task Force, 2009-10 (dates approx)
- ***San Jose Advisory Committee on the Apartment Rent Ordinance, 2015-16
- ***City of San Mateo Housing Policy Task Force, 2015
- ***San Mateo County Jobs/Housing Task Force and Home for All Steering Committee, 2016-2019
- ***League of California Cities Housing, Community & Economic Development Committee, 2013-15 (dates approx)

Serving on these groups afforded experience in consensus building, Roberts Rules of Order and the importance of community & stakeholder engagement to make recommendations to city councils and other elected bodies.

30. Are there any interests or activities that you wish to bring to attention of the Board of Supervisors? *

In addition to serving on different task forces, committees, and commissions, I have served on various non-profit boards and volunteer in different community organizations including:

- **Past board member: Loaves & Fishes; Silicon Valley Chamber of Commerce; Community Technology Alliance
- **Housing Industry Foundation Board of Directors. HIF is a non-profit organization aimed to help mitigate displacement by providing rental assistance grants to Bay Area households at risk of losing their housing. I am passionate about HIF's mission to prevent homelessness and provide a vehicle for community engagement by the rental housing industry.
- **Leukemia & Lymphoma Society fundraising to help support their mission to cure blood related cancers.
- **St Martin of Tours school. As a parent of three school age children, I enjoy participating in my kids school, engaging with the community, and supporting education. In addition, my family and I volunteer at St Martin's Food Box Packing program which prepares healthy food/grocery packages for families and seniors facing food insecurity.

SECTION 5. WRITTEN STATEMENT

34. Provide a written statement of qualifications not longer than three hundred (300) words expressing why you believe you are qualified and wish to serve on the Commission. Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

Redistricting is an important process that traces its roots to our Constitution. It's the process that aims to ensure legislative districts are re-balanced every ten years to account for changes in population, changes in demographics, and aim to bring about a sense of equity and equality.

Having been involved in different non profit boards, civic committees and task forces coupled with working to support a San Jose elected official during the 2001 city redistricting, I have a keen understanding of policy, process, consensus building, and the goals of a redistricting commission. Those experiences, as outlined earlier in this application, provided great training on the Brown Act, Roberts Rules of Order, and effective governance...all skills that will be helpful in being an effective member of this committee.

I am not affiliated with any political party. As someone who is registered as No Party Preference, I believe we need to transcend political parties and continue to focus on a goal aimed at encouraging diverse people to run for office--diversity of personal backgrounds, career's, education, life experiences, and give voters the choice to elect whom they feel is the most qualified to represent them. Given my NPP affiliation, I can look at the issues before the Advisory Commission without any specific agenda other than to ensure a fair process. When political motivations are put aside in the redistricting process, we are in a stronger position to produce fair district maps that empower voters and strengthen our democracy.

I submit this application--to serve the community and ensure the County develops a fair districting plan that seeks to give all voters a chance to be heard, no ones voice is diluted due to gerrymandering, and communities are united.

My academic background includes a BS in Political Science from Santa Clara University and a MPA from University of San Francisco.

SECTION 5. WRITTEN STATEMENT

34. Provide a written statement of qualifications not longer than three hundred (300) words expressing why you believe you are qualified and wish to serve on the Commission. Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

I want to serve on the Advisory Redistricting Commission because, as a lifelong resident of the County, I am passionate about ensuring our local governments work for the people they serve. That work includes drawing district lines that keep communities intact and making sure all residents have a voice through their county supervisors. Such work requires a diverse set of skills, skills that I believe my technical background and decade of community service have helped me develop. During my time on the Cupertino Public Safety Commission (PSC) and the Cupertino Union School District Citizens' Bond Oversight Committee (CBOC), I learned to collaborate with my colleagues to digest staff reports and ultimately come to consensus on disparate issues. My two terms as chair of the PSC and one term as chair of the CBOC taught me how to lead meetings and create welcoming forums where community members and my colleagues felt open to share their thoughts and opinions. My degrees and experience in the field of statistics equip me with analytical skills that will be essential in sifting through voluminous data to come up with a final map that is equitable and complies with state and local laws. I believe the public discourse skills I developed in my decade of public service and my background in quantitative reasoning will be assets on the Advisory Redistricting Commission.

The process involves dedication, honesty and integrity. With the past experiences in working with people, I will be an added value to the program, and believe it would be a great opportunity. I have provided security services in California for almost 30 years, during this time I have worked high-security for the Federal Government, State Government, Counties, Cities and National Banks. Over the past few years I have had the opportunity to run for State Assembly, in an area that was predominantly Democrat. This was very interesting, exciting and I enjoyed the campaigning process. It gave me an insight into how the areas are divided, perhaps not well thought out when dividing Republican and Democrat regions. It makes a campaign very difficult, if not almost non-winnable. I would love to serve, devote my energies and insight in the process.

30. Are there any interests or activities that you wish to bring to attention of the Board of Supervisors? *

When I lived in Austin, Texas, any new development that was built must be able to accommodate people from other income brackets. So for example, when Simon Mall built a complex of shopping/offices/condos in N. Austin, the county required them to accept a certain amount of tenants at a low to middle income level. This shopping complex has businesses like Tesla, Tiffany's, Apple, etc so it did not allow Section 8 but it did offer middle income people chance to rent there. They did this by working off a sliding scale. This concept is not new to CA. When I worked for the Federal Government, the Presidio, where I lived, offered US Park Police reduced rent to live in the park. This was a percentage of our salary. Without this many of us would not have been able to live close to where we worked and the park we protect.

Dear Commission Team,

Please consider my education and experience working in the government sector for a position on the redistricting commission. My background is highlighted by 13 years in sales and management, as well as 5+ years working for State, Local and the Federal Government. I am born and raised in Palo Alto, CA. I am third generation, living in Barron Park. My grandparents bought their house here after WWII. I have been very fortunate to attend both private and public schools in Santa Clara County. I have seen Santa Clara County change over the years. Some changes for the better, some not. We have grown into a very desirable place for so many, yet we keep so many shut out by our high prices and lack of affordable housing. I was one of those people. I have been fortunate to live in many states and have seen how other cities embrace or don't embrace the homeless population, how they work to welcome neighbors in times of natural disasters, and how they strive to offer affordable housing to new residents of their area. I believe we can do better than we have. The county has an obligation to all people, to treat them fairly and accommodate their needs while not infringing on others. I believe with my diverse background as well as communication and management skills, we can achieve this goal.

Thank you,
Kellie Stafford

Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

I came to Santa Clara County in 1979 to attend law and business schools at Stanford University. I stayed because of economic opportunity, natural beauty, and diversity. Since I like to hike and can speak basic Spanish and Chinese, I felt right at home.

I worked successfully in law, high-tech, teaching, and finance while raising two children in Los Altos. During 2018-19 I served on the Community Center Advisory Task Force. We received public input and made recommendations to Los Altos City Council, ultimately breaking a ten-year logjam. The new community center will open in September!

I also worked with local government while chairing Site Committees that developed 200 units of senior housing (Moldaw Residences), a K-8 School (Gideon Hausner Day School) and a community center (Oshmann Family Jewish Community Center) in Palo Alto.

I would bring valuable skills and a broad perspective to the Commission:

1. Legal Skills. As a lawyer, I can think, write, and speak clearly. I can understand and apply the laws governing redistricting. I have worked under the Brown Act and participated in public hearings.
2. Analytical Skills. The County is populous, diverse, large, and economically vibrant, so this Commission will have to synthesize large amounts of complex data. As an MBA-trained finance professional, I routinely gather and analyze complex data.
3. Familiarity with the County. I have studied, lived, worked, and volunteered here for 40+ years. I am broadly familiar with the County's many facets – commerce, healthcare, education, recreation, transportation, public safety, etc.
4. Personal Qualities. I am non-partisan, hard-working, thoughtful, and a consensus builder. I will bring a sense of fairness and ethics to this important work.

I am excited by this challenge and can attend all meetings. Thank you for considering my application.

29. Please list your qualifications thought applicable for appointment. *

Prior to retirement, I was employed by NASA for 28 years. For the majority of my tenure with the agency, I was a senior manager with responsibilities for both civil service and contract staff, budget advocacy, oversight, and reporting, partnerships with external organizations (academic, business, and non-profit; both domestic and international), and the conduct and public dissemination of research activities. In those roles, I frequently practiced the review and communication of policies focused on ensuring maximum participation and inclusion from a diverse suite of stakeholders and individuals. As a scientist in a scientific/engineering agency, I also routinely applied a wide variety of analytical tools and assessed the validity and appropriate outcome of their predicted conclusions.

While the topical focus of my scientific and managerial responsibilities was Astrobiology, NASA is inherently a community made up of its employees across the campuses where they work together. I additionally developed expertise in sustainability practices, including master planning for Ames Research Center. In that role I considered the needs of the multifaceted NASA community, now and in the future, and made contacts throughout the Bay Area with businesses, local governments, federal agencies, and community groups interested in climate change and other areas of resilience and sustainability impacts. This experience gives me an appreciation for some of the interrelationships relevant to our region.

30. Are there any interests or activities that you wish to bring to attention of the Board of Supervisors? *

While I was employed full-time, I applied to and was selected for membership in the Cupertino Library Commission where I served the maximum of two contiguous terms for a total of eight years. After retirement, I was invited to join the Board of Directors of the Santa Clara County Library District Foundation, where I now serve. The county-wide service aspect of the Library District, and the remarkable diversity of needs the staff seek to successfully address for their patrons, was the primary attraction for my participation.

Since retirement, I have also become engaged with the Santa Clara Valley Audubon Society and the Cupertino-Sunnyvale League of Women Voters. In the former, I participate in the Environmental Action Committee. With the latter, I have worked with the Voter Service Committee (in the development and presentation of non-partisan information on ballot measures and propositions) and the Civil Discourse Committee (in the development of materials supporting public dialogue on issues such as Education Funding and Healthcare Systems).

31. Do you have any obligations that might affect your attendance at scheduled meetings? * Yes No

SECTION 5. WRITTEN STATEMENT

34. Provide a written statement of qualifications not longer than three hundred (300) words expressing why you believe you are qualified and wish to serve on the Commission. Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

I shared above, in the section on Applicable Experience, my academic, work, and life experience and my recent community activities which I believe represent good qualifications. These also represent the choices I've made in committing my time and energy to achieving a fuller and deeper understanding of the perspectives and priorities of my fellows—whether they are friends, colleagues, co-workers, or community members writ large.

Several years ago two NASA centers (Ames and Goddard) experimented with Diversity Dialogue Groups—organized in the workplace and supported by trained facilitators but completely optional as to participation. At the time, I had recently completed several terms as the elected Chair of the Advisory Committee for Women at NASA Ames and was seeking another type of opportunity for engagement with diversity learning and personal exchange. Some conversations were challenging to be sure, and the openness of the participants was critical. I think that experience was very good for me—wish it happened more often.

I believe my experience has combined applied data analysis with serving communities of people working towards shared goals. These, in addition to my interest in serving the County's population, I offer as qualifications to those selecting the members of the 2021 Advisory Redistricting Commission.

Please share any additional experience, community activities, or other qualifications that make you a strong candidate for the 2021 Advisory Redistricting Commission.*

I am very passion about water conservation. I grew up in Mobile, AL where there is a long history of bad floods. I even went to Texas to help with hurricane Harvey relief efforts which involved driving around cities in a boat in order to rescue people from their homes and get them to safety. Because of this, I'm very passionate about ways that we can combat climate change. I am also passionate about ending systematic racism which also happens on the level of redistricting. I want to make sure that ass a member of this commission, I am fair to marginalized communities as well as our more well off neighborhoods. I will make sure that I redraw boundaries in a way that is the most beneficial for all involved. I don't just talk about these things, I act on them and I will bring that to this Commission if I am given the opportunity. Thank you for your time.

County of Santa Clara
Office of the County Executive

DATE: July 9, 2021
TO: 2021 Advisory Redistricting Commission
FROM: Melanie Jimenez Perez, Program Manager II

SUBJECT: Supplemental Information: July 7, 2021 Item No. 7: Appointment Process for Seats 11 through 15

SUPPLEMENTAL INFORMATION

At the July 7, 2021 meeting of the 2021 Advisory Redistricting Commission (Item No. 7), the Commission requested supplemental information pertaining to:

- countywide demographic information for Santa Clara County;
- the current commission's city of residence; and
- applicants' city of residence and skills/ occupation.

Information responsive to this request is provided in this supplemental report.

Countywide Demographic Information

Updated information from the 2020 Census will be utilized for the redistricting process but will not be available until the end of September. To provide the Commission with information to assist with the selection process, the American Community Survey (ACS), which is a nationwide survey conducted by the United States Census Bureau to provide communities with demographic, social, economic, and housing data every year, is provided below. The demographic information is from the 2019 American Community Survey 5-Year Estimates.

The 2019 American Community Survey 5-Year Estimates reported the population in Santa Clara County to be 1,927,470. Gender data reported the percentage of male and female with males making up 50.6% of the population and females 49.4%. The following table provides the population in Santa Clara County by age range:

Age Range	Percentage of Population
14 and under	18.5%
15-19	5.9%
20-24	6.2%
25-34	16.1%
35-44	14.5%
45-54	13.8%
55-59	6.3%
65 and older	13.2%

The Census Bureau collects racial data in accordance with guidelines provided by the United States Office of Management and Budget (OMB), and these data are based on self-identification and people may choose to report more than one race to indicate their racial mixture. OMB's guidance specify that race and Hispanic origin (also known as ethnicity) are two separate and distinct concepts. People who identify their origin as Hispanic, Latino, or Spanish may be of any race. OMB requires five minimum categories: White, Black or African American, American Indian or Alaska Native, Asian, and Native Hawaiian or Other Pacific Islander. In Santa Clara County, 25.5% of the total population is Hispanic or Latino (of any race). The 2019 ACS report provides the following information on population by race in Santa Clara County:

Race	Percentage of Population
White alone	44.5%
Black or African American	2.5%
American Indian and Alaska Native alone	0.4%
Asian alone	36.5%
Some other race alone	10.5%
Two or more races	5.2%

According to the 2019 ACS report, the homeownership rate was 56.4% in Santa Clara County.

Voter Registration Information

A report of registration from the California Secretary of State indicated that as of October 19, 2020, the total number of people in Santa Clara County who were registered to vote was 1,019,309. The party affiliation of these registered voters, by percentage, is as follows:

Dear Melanie,

After a honest and careful analysis of the applicants in my District, I'm sending you 3 nominations for consideration of the Commission, as they are stated in the Attachment II Applicant Overview:

No. 19 David W. Keith
 No. 25 Joshua Scott Howard
 No. 26 Daniel Nguyen

Checking the applications we have access to, I think all the applicants have great qualifications, but keeping in mind that our goal is to bring the more diversity possible, I think these candidates address in many aspects the gap we pursue of demographics in general.

Thank you for the great support we have from you all,

DATE: July 21, 2021
TO: 2021 Advisory Redistricting Commission
FROM: James R. Williams, County Counsel
SUBJECT: Overview of Ralph M. Brown Act, Statement of Economic Interests Disclosure, Procedural Information

RECOMMENDED ACTION

Receive report from the Office of the County Counsel relating to an overview of the Ralph M. Brown Act, Statement of Economic Interests Disclosure, and Procedural Information.

REASONS FOR RECOMMENDATION

The Ralph M. Brown Act (“Brown Act”), California Government Code sections 54950 et seq., establishes that public commissions, boards, councils and other “legislative bodies” in California must conduct deliberations and take actions only in a publicly-noticed meeting. Because the 2021 Advisory Redistricting Commission (“Commission”) is a legislative body under the Brown Act, it must ensure that it complies with this open-meeting law.

In addition, Commissioners are required to file Statements of Economic Interests (Form 700s).

The County Counsel’s Office is providing a brief presentation regarding the Brown Act and Form 700 disclosure to ensure that Commissioners are knowledgeable about the various requirements and restrictions.
