Impacts

- We are a $3M budget organization with most programming in the Summer months. By October we project to lose $1.6M in earned revenues.
- Have suffered tremendous losses of paying gigs to hundreds of musicians and dozens of small, minority-owned vendor businesses.
- Critical tuition free after-school programs and summer programs that low income families rely upon suspended indefinitely.

- We have pivoted to producing online performances and education services to stay connected to our and inform them of services and support.
- Repurposed our mobile stage truck to delivery food, essentials supplies and education materials to our six Title 1 school sites in FMSD as well as to farmworker relief projects in Salinas and San Juan Bautista.
Challenges

- Critical afterschool programs need guidance and **flexibility** to operate and support our families. These programs MUST be part of the coming school year.

- Of the more than 133,000 job losses in our region since March, **38% are in hospitality and leisure sector.** Public gathering spaces in this sector are tremendously varied. The sector needs flexibility to apply guidelines and help our hardest hit families and business return to work.

- We CAN produce safe outdoor social distanced programming but we need **collaboration** from SCC. Our activities are not uniform office spaces, malls, or churches. We need guidelines not dictates.
Opportunities

- SCC staff have spoken of outreach efforts to build “cultural norms” that reinforce safe practices. Work with us to build Safely Social Santa Clara County.
- Help us approve and launch STREETFARE - our collaborative initiative to create a Safely Social public commons that support our restaurants that do not have massive patios and sidewalk space.
- Public gathering around the arts can and should be healing balm for our communities at this time. The arts serve as “Second Responders” to crisis. Help us mobilize. Fight with us to gain support in the proposed HEROES Act. Treat us as part of the social safety that we are.
- Use this time to re-examine SOPs of Environmental Health to support economic recovery. Why can’t we have an app-based permit approval process for events such as we are now seeing in building permitting?
